## Mystery She Wrote

The concerning airs of June blew ever harder: Just the day after where we left off Sunday 6/27, a strange, frankly shocking flurry of odd emergence convergences started right away on Monday the 28th.

Went bike riding, early that morning; mornings rides a rare occurrence. At a moment, Hendrix, All Along the Watch Tower playing; a powerful image of Lady Liberty squirming in my mind & suddenly the music stops & so do I, to reset the phone. There on the ground in a garden bed is a spark plug, which for some odd reason, I took a photo. Upon returning home, Lady Liberty wouldn't leave my mind, so instead of foodie work, Lady Liberty insisted she exist: I drew her, without looking at the spark plug photo. The 1st sketch had no Chest Dot or sleeve detail: When painting her, the arm/sleeve was a struggle, as you may note the odd angle of it and had a sudden driving urge to grab the Black Oil Stick, to stab her in the chest: You may note the pronounced Dot?

That same day/days, had a Star appear, debated whether a 5 or 6 pointed; it mystically became this "Captain America" Star.

Rarely go out during the week, but on Wednesday 6/30, I happened to grab a burger & saw the server, model mentioned (in April), who often inspires depictions of Lady Liberty. Tending bar, she put her arm down with large new ink glistening: I mentioned it & she proudly announced "I'm getting a sleeve". The gloss made it hard to see, so I asked what it was and she replied "Iron Man". Now, I'm no Marvel Fan...so rushed home to research Iron Man...and that's the mystery she wrote...except the odd airs' phenomenon continued, as the Pemex Gulf Fire Ball was a mirror image of a painting done 1 month prior on 6/3!

age. Thus it is important to note that Madison was very concerned to guard against eruptions of popular passion, above all, as he argues at great length in *Federalist* #10, tyranny of the majority. He was also very concerned about legislative factionalism, about a small cabal of politicians who could manipulate the process and have their way against even the reasonable and just wishes of the people. Good government, for Madison, is indeed "representative" government, but it is also stable and intelligent government. A government that merely reflects the heated passions of the moment, mirroring as closely as possible the

# The Videos

Early in '21, furthering the ongoing effort to get attention to make a more pertinent contribution to the Resistance, we started to produce videos using Fairytale Frames set to music.

These are available for view on You Tube: Chris Scheuer.

From onset of Leadership Fairytale's inspiration in '16, given strong emotional impact on me, I held hope that the Fairytale would serve as valuable support to portray reality of Real American Revolution, providing irrefutable proof of collusion. As days, months, years have passed since we started drawing Fairytale Frames, we garnered little attention, despite "Exceptional Content".

We came to believe that our failure to significantly contribute to "The Resistance" & miss of our overriding objective, to spare America & The World Great Pains; at this late hour, feel comfort that at least Leadership Fairytale may serve as a pertinent, trustworthy, unique historical record. This didn't stop me from exploring new more attention getting ways to share Frames & convey messages:

At this point it's hard to stop!

Production quality of the videos improves over time & music mystically synchs with the frames' flow.

# July 4th

As we saw National Holidays being used to demarcate & enunciate Real Revolutionary Assault Fronts, the 4th was of concern.

Last 4th marked by the opening of Donny's Deluge in front of Mount Rushmore; what would this 4th bring, especially given the odd sequence of inspirations coming into this Summertime Fling?

# P-Town Camping & Biking the Dunes

Mother's Sunshine Day Dream—8/31

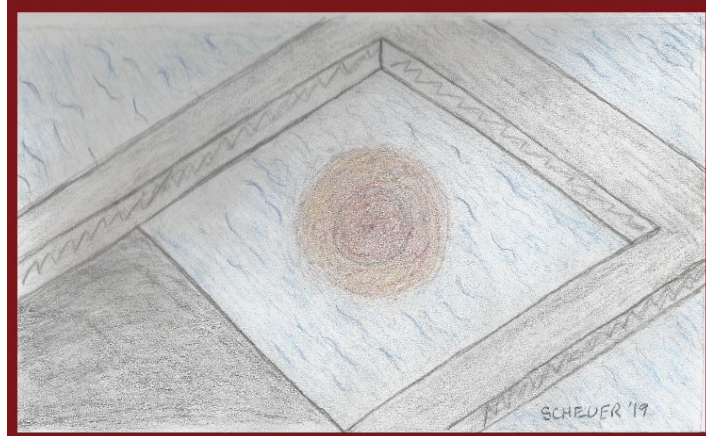

Provincetown, a land of my youth! Reveled in the Nature of the Dunes & the National Resource of the Bike Trails. Snapped this Mother/Daughter playful late summer camping scene & came upon this quote from my Grandfather from 1958 which seemed relevant as we quit Afghanistan.

There are foreign policy oriented people in virtually every community in the United States. As a rule they tend to be the most interested and articulate, and are well represented in every leadership echelon. The gap between their concern with the overall national interest and the political impact of that concern poses one of the gravest problems in our public life. And it may be that finding a way to bridge that gap and to give impact to this widespread concern is the most important prerequisite for American leadership in creating a free and peaceful world.

# September—October 2021—The Face Off

After the early summer flurry in the Gulf; the suspicion that Haitian Overthrow & uprisings in Cuba were some sort of bait for Biden to temp fate aka “#TheTraps”, as Afghanistan withdrawal & Border were proving to be.

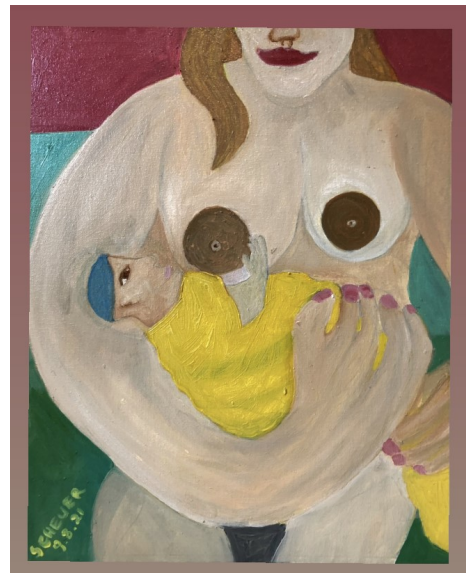

End Game Trap—3/'19

The caustic social airs of America were tossed with the Supreme Court Ruling, putting in question a woman's Right to Choose; yet again? The political airs astir, with amplified & more frequent remarkable statements & behaviors by #RepReps & players like Bannon, taunting while still flaunting Justice. No matter the better public faces of Top Officials, Biden, Top Military Brass & Merrick Garland, opinion here was seeing compromises, significantly inhibiting performance, making Our Leaders compliant or they are otherwise in some way complicit in the undermining of Our Society.

A bright light in this frightful night has been Press Secretary Jen Psaki, so composed, eloquent, pointed; yet charming.

In Nature, The Mother Chooses: To upset this, compromises Man's natural balance: Disrespectful of humanity & Americans.

Transcript of Declaration of Independence (1776)

IN CONGRESS, July 4, 1776.

**The unanimous Declaration of the thirteen united States of America,**

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, —That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them

Social Scene Inspirations started to fade away, as odd fodder started to catch my eye, not just on weekends, but anytime!

Hands of Despair? 10/28

Vagina says it all about America's State. God All Mighty USA! Caught up over pent up peeves of yesteryears, not facing anything near Realities of today?

Forget the Anti-Vax & Mask, consider the risk of Real National Overthrow and what this will mean to your Liberty. The eyes have seen the Gory of the coming of such sinners, time & time again in histories. If we believe America to be that Beacon for Humanity, it is Our day to prove our unique illumination.

TBC

Not an alarmist sort; believe like most to be objective. We must face realities, building our capacity to meet challenges which may arise and to build new, better, more flexible good tools.

The Resistance is caught in managing normally for normalcy, facing the Institutional Assaults as they arise, as We should; but we must not neglect to build capacities to face challenges in a far more turbulent State. This risk is now witnessed daily as the #RadicalDialogue, believe it or not, is more distasteful disgrace everyday. The Turbulent Tale the Fairytale is painting is one where we too must Paint better Our Truths, in pursuit of #Unity.
