## Flavorful Everyday

We appreciate your interest in Current Specialties' Products.

Current Specialties offers "signature" ingredients, those that bring improved flavor & function.

Our Focus: Flavor, Provenance, Everyday Use, Distinction.

We promote provenance; an effort to help bring marketing value to complement the better end-product results.

### **Sourcing Specialist: Partnership - Vertical Supply Chain – Customized Solutions**

We believe operational efficiency is maximized through stable, quality, well-oiled consistency in supplier/customer relationships: Current Specialties proposes a static list of Select Supply Partners; this improves operational efficiency for R&D, QA & Logistics. We do & can move sources, as market conditions & client needs dictate: We will never compromise quality. Our base price may not always be lowest, but never "high": Operation efficiency will easily compensate any higher raw contract cost.

Our Partners are here to tailor the best solutions for you.
